

"BE the Confident Leader"

From CorSpective with Barb Dusek

Leadership Development Program

Imagine a work environment where employees thrive under a passionate leader who leads, motivates and helps you grow.

That leader is inside of YOU.

Inside each of us is a voice of leadership. Yet, sometimes we are reluctant to recognize and use our voice. Your own particular mix of assets are unique to you, no one else has what you have. And, *no one else can lead like you can.*

By the end of this coaching program you will recognize the tremendous value you bring as a leader. You will see yourself as a complete package and know the value you bring to the workplace is far deeper than solely your tactical skills. You will declare, "I can contribute far beyond what's listed on that job description."
